SURFACE DECORS

www.hafele.com

Häfele Group since 1923

Häfele is an internationally organized family owned and operated business with headquarters in Nagold, Germany. It was founded in 1923 and today serves the furniture industry, architects, planners, cabinet makers/joiners as well as dealers in over 150 countries around the world with furniture fittings, architectural hardware, electronic access control systems, home appliances and sanitary fittings & wares. Häfele develops and manufactures hardware and electronic access control systems in 6 factories in Germany and Hungary and exports high quality standards throughout the world in the form of products and services. In the 2015 financial year, the Häfele Group achieved exports of 79% with over 7,100 employees in 37 subsidiaries and numerous additional dealerships around the world and revenue of 1.3 billion Euros.

HÄFELE

Your expert for surface decors

For more than 15 years, TZ Austria is well known as a reliable supplier of fronts and furniture for industry and carpenters. By the years, TZ Austria has invested more and more in latest surface technique and surface lamination. The surface decors are produced through one of the most professional field lamination machines. Today, TZ Austria counts as the most innovative supplier of the furniture and door industry all over the world. This achievement was reached with the help of machines at the latest state of the art and valuable materials. Their quality management grants the highest quality standard in the production.

We offer Surface Decors

European quality

The surface decors are produced under European quality standards.

Scratch resistance

Our products received the highest rating in resistance to scratches.

UV and chemical resistance

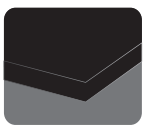
The tests results demonstrated a low stress potential and a resistance to UV.

Wooden base material

All surface decors are pressed on a 1.6 mm wooden base material (MDF board).

Color variety

With over 30 colors, the range presents a wide variety of designs directly inspired by the latest trends.



Edgebanding made of surface material

All colors have edgebanding matching the surface offering a seamless transition.

Preforming

The surface decors can be pressed and performed in several different angles (additional costs may apply).
